our diplomatic connection with China, none A case showing very clearly the manner is which the Ohinese contrive to conder augutory trenty stipulations with regard to tariff, even within what might be called foreign supervision and inrisdiction, came up at the Mixed Court, yesterday. A Uhinaman, on Wednesday, atop ped a coolie, belonging to Remé & Co., while carrying a sample piece of habit cloth to a shop in the Muloo, and claimed a tax of Tla. 0.4.6 In vain the quelle represented that the cloth was foreign property, the parcel was taken from him, and put in a sort of bonded shop til he should procure a paper to that effect. Mr. Remo at once placed the matter in the hands of grant interference with treaty rights. The case was heard before Chen and Dr Jenkins, the American Assessor; and the inquiry then opened showed a state of things by no means satisfactory. It appeared that the man belonged to the Yang-poo-kung-teo hong which has bought the privilege of levying taxes on Chincee in the Settlement, and tha during which the two leading instances we there are some fifteen collectors employed in looking after this revenue. Mr. Romo preed interests of foreigners, and oppressive to the Chinese in the Settlement, who had to pay Municipal taxes. In this instance the amount was one half the Customs' tariff. Jenkine entirely agreed that it was an imposition on trade never contemplated by the Prenty, and that by which practices foreign trade was injured. Mr. Penfold said everything sold by Chinese was eimilarly taxed, and had always been as an farms he knew. The sums thus raised, went to the kong which had bought the licence from the Taotai to collect them. Chen, said the man had committed a serious offence in having asked for the impost in a public rond and on was perfectly right, only its collection should they came to make such a mittake as to stop this cloth on the war, and doubtless they would discharge the man! This, bowever, will remain untonobed. It was stated that a fresh collector would ut once be put on indeed that the vacancy, created by this man's arrest was filled up the same day. After considerable discussion as to the disposal of the delinquent, Chen left him in the hands of the Municipal Police, in order to facilitate Mr Reme's representations to the Prussian Consul We learn that Mr. Annecke has already taken up the matter, and has demanded that the squeeze collector should be delivered over to him, in order that he might be brought before the Taotai, and the illegality of his cocupation be represented: Art. XXIV of the Prussian Treaty specially stipulates that the Contoms Import duty aball free goods throughout the Empire, with the exception of the Transit duty; and as no doubt the other Foreign trenties benr the same stinulation, we hope the Consule generally will unite, and with the Municipal Authorities endeavour to put fown the system, at least in the Settlements

LET US REASON TOGETHER!

Why are you sick? There must be a cause Nature never intended that we should pass, as many do, nearly one-half of our lives in bodily pain. Thus it becomes evident that you have, in some way, broken Nature's laws. Your Sinkheidache, your Nervous-headache, your Biliousbeadache, Liver Complaint, Pain in the Side, and up under the Shoulder-bisdes-your Indigestion, Sour Stomach, Flatnlency, and Hourtburn-your Costiveness, Piles, Sickness at the Stomuch-the Pimples, Roughness, and Blotohes, on your face, neck, and arms -all these; and many other troubles and feelings of illness are simply evidences of the fact that you have broken the laws on which Nature bases the bodily ease, comfort, health and strongth of the buman family; and the chances are and hundred to one, that unless your system gets terms. prompt sid, your trouble will go ou increasing and gradually getting worse, until it is beyond human help. The point of great importance, then, is to obtain the proper remedy some thing that will ours safely, and not by violent action or corroding influence jeopardize the health it is intended to restore. There is such a medicine-perfectly safe for the weakest and most delicate, yet powerful enough for the strongest-searching out every atom of discased or deprayed matter, and expelling or neutralising it-giving wonderful tone and strength to the stomach, vigor to the liver, and regularity to the bowels ;-need we say that this medicine

The expensive liquid odors which are sold in small vints as perfumed for the handkerchief, are of no particular use or benefit to those who nee them. It is not claimed that they exercise any beneficial influence upon the houlth; nor that they can in any way mitigate or relieve the pervous troubles with which so many ladies are afflicted; in fact, their use, is of no benefit

How different it is with that bealth giving and delightful floral perfume

MUERAY & LANMAN'S FLORIDA WATER!

It is one of the sarest and speediest of curos for every form of nervousness. It relieves headache when other applications completely fail. It reinvigorates the fatigued and overtaxed body. It imparts force and buoyance to the mental powers. It clears the complexion of all pimples, impurities, and roughness, and to the faint and exhausted invalid it lends strength, and gives ease and comfort, and yet stored thereon. withal it is

THE MOST DELIGHTFUL OF

The sense of smell never tires of it. Its fresh ness and exquisite fragrance when once enjoyed become ever after a positive necessity.

It is this wonderful combination of the usefol with the agreeable, that has made MURRAY LAHMAN'S FLORIDA WATER so widely celebrated and so highly prized. In many warm climates, four to six bottles of it are. mixed with the water of each bath, which so invigorates, recoperates, and strongthens the system, that the enervating effects of climate

It is not alone in the richness or delicacy of its fragrance that MURRAY & LANMAN'S FLORIDA WATER equals, and even surpasses, the most expensive of the French and English perfumery, but also in its lasting power. The handkerchief-sprinkled with it, is perfumed forweeks, or until it is washed; and, unlike the English and French extracts, time does not deteriorate its fragrance, but rather serves to refiue or spiritualize its exquisite aroma.

As a cosmerio it is unequalied, imparting softness, clearness, emoothness, and whiteness to the face, nock, arms; and hands; but as ther are counterfeits, it is necessary always to nak for the FLORIDA WATER prepared by LANMAN & KEMP, NEW YORK, who are the sole proprietors of the gennine article.

An Anglo-Chinese Dictionary, by the Rev.

Press Office, Hongkong.

W. LOBSOHEID, published at the Daily.

MOR scope and practical service this Work. I stands unrivalled. All the new words which the Chinese have of late years, been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them are here given is extense. Each and every word in fully illustrated and explained, forming evercises for students of a most instructive nature. Both the Court and Panti pronunciations are given, the accepta being carefully marked on the best principle hitherto attained. The typography displays the success of an atlempt to make the Ohinese and English type correspond. in the size of body, thereby effecting a vast economy of space, inclieving a clearness not proviously attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications. It comprises upwards of two thousand large quarto pages.
